2-1 Questions and Answers

Q1: Can the District please clarify if it is the District's intent per page 27 #12 of the RFQ that the Principal Engineers have the professional liability insurance requirements for \$2,000,000 per Occurrence and \$5,000,000 Aggregate in place at time of RFQ submission? The \$5,000,000 aggregate is higher than usually requested for the Principal Engineers. Would it be acceptable for Principal Engineers to submit their current limits along with a letter from their insurance carrier stating that the limits can be raised to meet what is required if awarded the project?

A1: Certificates of Insurance for the limits required per the RFQ will be required prior the award of the Design-Build agreement. A letter from the Principal Engineer's insurance carrier stating that the limits can be raised at the time of award will be sufficient.
