1. The responses to the questions received by the RFI deadline of April 25, 2022 at 5:00pm are shown below:

Q1: Can you provide either an estimate volume (dates of trips, #of buses, itineraries) -to determine relay and/or overnight trips-and any additional itinerary information so we can accurately establish rate and availability?

A1: This information will be provided in a future addendum.

Q2: Will the awarded contractor have the ability to subcontract for services when they are not able to provide the requested services directly?

A2: The awarded contractor is expected to provide all requested services directly. However, in the event that the awarded contractor is unable to provide the requested services directly, they may subcontract for services only with the explicit permission of the District. All subcontractors will be held to the same levels of insurance, indemnity, and all other applicable aspects of the terms and conditions in the awarded contract.

Q3: The fleet information form in the RFQ&P does not allow for contractors to enter information for fleet vehicles over five years old. Will the District issue a revised form to request this information?

A3: Yes, the District will issue a revised proposal form with a future addendum.
