

TRAFFIC AND PARKING REGULATIONS

Traffic and parking regulations are developed at the college level and recommended to the Chancellor. The regulations shall be consistent on all campuses and sites to accommodate those students attending classes at more than one location.

At the discretion of the Board and upon recommendation from the Chancellor, parking fees may be established.

The Board authorizes Irvine Valley College and Saddleback College Police Departments to issue traffic and parking citations and to utilize automated license plate recognition within the boundaries of District properties. Both colleges shall offer a delinquent parking citation payment plan consistent with laws and regulations.

The Chancellor shall establish regulations on automated license plate recognition usage and privacy as required by statute.
