2. Select the type of the device are you adding.

Mobile SSO Portal Access Setup and Initial Login

3. Enter your phone number and check "Is this the correct number?"

4. If you are using anything other than iPhone, select **Other** for the type of the phone.

5. Verify the ownership of your device by

selecting either Call me or

- a. If you selected Call me, you will receive a phone call with the verification code given to you in an automated voice.
- b. If you selected Text me, you will receive a text message with the code.

If you change your phone number or your device, open a <u>service desk</u> <u>ticket</u> to request a reset of your account.

6. Enter your verfication code and click Verify

7. Click Continue

Scroll down and click Continue to Logn

This step completes your enrollment

Mobile SSO Portal Access Setup and Initial Login

Initial Login

1. Choose your desired authentication option.

- 2. Based on your selection:
 - a. If you selected Call Me, answer the call and press any key to be logged in.

b. If you selected Enter a Passcode, you will get a SMS text message with two codes. Scroll down and click on **Text me new codes** button. You will see a notification with the starting number of the passcode to use.

 Enter your passcode you received in the SMS text message and click Log In .

 You are now logged into the sso portal that gives you access to various district IT resources.
