

CAMPUS POLICE AND SAFETY SERVICES

The Board is committed to a safe and secure District work and learning environment. The campus law enforcement agencies have the primary authority for providing police and safety services to their campuses, including the investigation of criminal activity, and in doing so shall adhere to community policing principles and evidence-based policing practices.

The Chancellor shall ensure that the colleges establish a Public Safety Compact and ensure that it is posted or otherwise made available to students. The Public Safety Compact shall establish the requirements for the delivery of public safety related services on campus including:

1. The respective roles and responsibilities of management, faculty, campus police and security officers, mental health and social services workers, crisis counselors, and community non-profits;
2. The availability and location of security personnel;
3. Methods for summoning assistance of security personnel;
4. Any special safeguards that have been established;
5. Any actions taken in the preceding 18 months to increase safety;
6. Any changes in safety precautions to be made during the next 24 months;
7. A requirement that public safety personnel offer contact information to individuals who are stopped or otherwise subject to police or security officer initiated interaction; and
8. A process to encourage individuals who have interacted with campus public safety personnel to submit a response related to the interaction.

The Chancellor shall create a public safety advisory committee that makes recommendations to the Chancellor and reports to the Board at least annually on campus police and safety services.
